department for children, schools and families

# Darlington Sustainable Schools Networking Event

Darlington Borough Council and our partners are hosting an awareness-raising event to highlight the Department for Children, Schools and Families Sustainable Schools Framework. This exciting framework links school improvement and development with sustainability objectives and outlines how the eight 'doorways' to becoming a sustainable school link through the curriculum, campus and community.

This event aims to show links between the framework and other local and national priorities and initiatives and will explore the local context, and examine how sustainable schools can be delivered and developed in Darlington.

All stakeholders are invited—whether you are a school leader, teacher, governor, parent, pupil or whether your role is to support schools in this exciting journey through a public, private or third sector organisation. There is no cost for attendance and refreshments will be provided.

### Agenda—

- Introduction to the DCSF Sustainable Schools Framework
- Darlington perspective—what the authority and others are doing and where to go for support
- Key Question workshop—What support do you need to maintain and / or extend your Sustainable Schools activities?
- Showcasing projects involving local schools
- A governor's perspective
- The way forward for Darlington?

### Date, Time and Location—

Wednesday 20th January 4–6pm

Carmel RC College,  
The Headlands,  
Darlington,  
Co. Durham,  
DL3 8RW
